1. It has been reported that several leaders of the Partido Comunista del Ecuador (PCE) are in favor of a cessation of hostilities in Korea, because they believe that the Soviet Union is not prepared at the present time to wage war against the United Nations.
2. They have also stated that a two or three year truce would provide the Latin American Communist Parties with ample time to prepare for war.
3. Dr. Ecardo Paredes, Efraim Martínez, Primitivo Barreto, María Luisa Gómez de la Torre, Cesar Endara, and Segundo Ramos are reported to be among those who have expressed the above views.
